SUMMARY

Focused on delivering high-quality, scalable web applications that drive business growth and enhance user satisfaction. Proficient in Typescript, Node.js, and modern frameworks, with a passion for clean code, problem-solving, and system efficiency. Committed to contributing to team success through innovative solutions and continuous learning.

EXPERIENCE

Frontend Developer   **April 2024 -Present**
Ideometrix pvt ltd,Gilgit

- Developed responsive and interactive user interfaces using modern frameworks like React.js and Next.js.
- Integrated RESTful APIs to enable seamless communication between frontend and backend systems.
- Optimized frontend performance by implementing best practices for clean, maintainable, and efficient code.
- Ensured cross-browser compatibility and responsiveness for optimal user experience across devices.

Junior MERN stack Developer   **October 2024 -April 2024**
Ideometrix pvt ltd,Gilgit

- Contributed to the development of a hotel management system by building responsive and interactive user interfaces using React.js.
- Gained hands-on experience in frontend development, including component design, state management, and seamless integration of RESTful APIs.
- Enhanced user experience by fixing bugs, implementing new features, and optimizing existing UI components for better performance.

Fullstack Developer Intern   **April 2023 - October 2023**
Ideometrix pvt ltd,Gilgit

- Developed and maintained web applications using HTML, CSS, JavaScript, React, Node.js and tools like Postman for API testing, and MongoDB for database.
- Participated in all stages of the software development lifecycle**,** including design, development, testing, and deployment.
- Collaborated effectively with cross-functional teams to ensure successful project outcomes.

Projects

Skysetlogistics – Order Tracking System   https://skysetlogistics.com/

- Designed and developed the user interface for the Skyset Logistics order tracking system using React.js and Chakra UI to deliver a responsive and visually appealing experience.
- Implemented real-time order tracking functionality by integrating APIs and creating dynamic UI components with Redux Toolkit for efficient state management.
- Built interactive features to display captured images and progress updates at each delivery stage, providing users with visual confirmations and live updates.
- Optimized frontend performance for faster load times and ensured responsiveness across devices by adhering to best practices in React.js and Chakra UI.

Ideometrix website   https://ideometrix.com/

- Developed and maintained the user interface of the Ideometrix website and portal using React.js, Chakra UI, and TypeScript to deliver a modern, responsive, and user-friendly experience.
- Implemented secure user authentication and role-based access control features by integrating the frontend with backend APIs.
- Leveraged TanStack Query for efficient data fetching, caching, and synchronization, ensuring a seamless user experience and improved application performance.
- Collaborated with backend developers to ensure seamless integration of APIs and consistent data flow between the frontend and backend systems.
- Ensured type safety and scalability by utilizing TypeScript, reducing bugs and improving code maintainability across the project.

EDUCATION

Karakorum International University, Gilgit   Sept 2024 - present
- Bachelor's in Software Engineering

Kings College Jutial Gilgit   august 2021 - june 2023
- Fsc ICS– 67%
-

Diamond Jubilee Learning Resource High school Momin abad   april 2019 – September 2021
- Marticulation – 76%

CERTIFICATIONS

- **CodeAcademy certified:** Full stack developer**.**
- **Game train certified:** Junior Full Stack Developer**.**
- **Cologixs:** Frontend developer**.**
- **Ideometrix:** Frontend development

Skills

- **Frontend Development:** Html,css ,javascript,typescript,react,bootstrap,tailwind,chakra.
- **Backend development:**Node js, Express js, RestFul Api design, Typescript.
- **Database:**MongoDb.
- **Tools:** Git and github
